Matter: Statement of compatibility for devices intended for project SODRA

Based on request from our official **PLATINUM Partner** – UAB „Biznio mašinų kompanija“ – company which is granted status of being **preferred partner** for the **project SODRA**, I would like to state that:

Devices listed below are fully compatible and ready to work in project SODRA as desired under functionalities as under Full embedded terminal control and Network control functionality as indicated within table:

Xerox VersaLink B7030	-	full functionality
Xerox VersaLink C7030	-	full functionality
Lexmark mx622adhe	-	full functionality
Lexmark MX521de	-	network control functionality

* devices indicated as full functionality, can be operated in any lower functionality aka network monitored device if added this way to OptimiDoc solution
